

DIGITAL COURT REPORTER

CareerSource Suncoast and SCF are partnering to offer a FREE court reporter training course.

Develop the skills necessary to become a successful digital court reporter with this self-paced online program. Upon completing this course, you will be ready to pass the Certified Electronic Reporter (CER) exam, offered by the American Association of Electronic Reporters and Transcribers (AAERT). AAERT certification vastly improves your marketability when applying for work at freelance agencies or court systems, some of which require the certification by law or because of government contracts.

The program is available to:

- Manatee County residents living outside the City of Bradenton who have been affected by the COVID-19 pandemic.
- Sarasota County residents who qualify for ALICE.
